P. C. BANQUET TO FRESHIES WAS SUCCESS

Speeches Dealt With Various Aspects of the European War.

LOSS OF DR. SCRINGER

Principal's Advice to Students Against Professionalism in Religious Life.

Yesterday evening the annual freshman banquet was held at the Presbyterian College. This treat has always been given to the freshmen as a recompense for the dread tortures they suffer at the initiation. Last night, however, so tempting were the various courses and so liberal and comprehensive the general appetite that it may fairly be said that the banquet was and will be in more senses than one a compliment to the invitation.

R. McLean, the president of the college, presided as toastmaster, supported by the faculty and a few Montreal ministers. There were present also some 43 students.

After the repast Mr. McLean proposed as the first toast "His Majesty the King," which was accorded with great enthusiasm, and completed by the singing of the national anthem. Next in order came the toast to the faculty, again proposed by the president. He lamented the great loss that had been sustained by the death of the late revered principal, Dr. Scrimger. The faculty of the college, he said, had always been strong, and the present members were no exception. By their writings they were known all over the English-speaking world, while their prowess in the classroom was well known to all theological students. There were, however, some student points of view that the proposer wished to bring before the notice of the faculty. In the first place, there were no options, and in the second place the professors were not compelled to take a course in pedagogy. These, Mr. McLean averred, could be remedied.

Dr. Welsh replied to this toast. He said there were two shadows over college life this year. The first of these was that the college had been deprived of its "head" when Dr. Scrimger had been taken from the principal's chair. The late principal, said Prof. Welsh, was a man with marvellous method in teaching, and with a large sympathetic spirit towards the students, who loved him the more as they knew him the better. The other shadow was the European war, which hung as a leaden cloud in Canada's sky. This, said the professor, was the reason of the diminished numbers in attendance at college this year; in fact, it would be a shame if the college did boast of its usual quota during this time of sacrifice and strain. More than ever, he said, do the students and professors need each other, and he hoped such would be the case. In conclusion, Dr. Welsh outlined the requirements that it was necessary to acquire during a college course. These were scholarship stimulated by a love of truth, personal culture and qualification for citizenship and leadership.

The toastmaster next called on Mr. A. Ray to propose a toast to the freshmen in theology. He said that most theologues took their theology on trust, and so the course became only valuable in its entirety. It was an epoch, he maintained, in a man's life to enter the mazes of theological doctrines and dogmas and not lose touch with real life.

Mr. W. Taylor, B.A., who replied, dwelt on the lost condition of a freshman in theology for the first few weeks, yet in time, and although limited in numbers, the class hoped to make up in quality what was lacking in quantity.

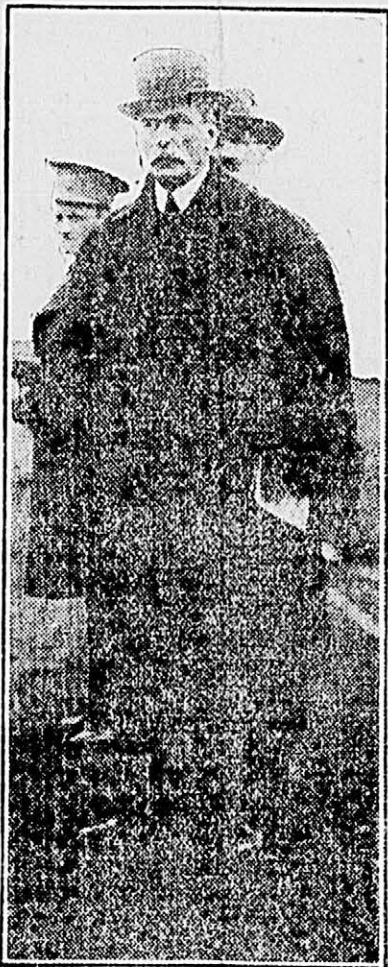

Mr. A. M. Pope proposed the toast of "Our Comrades Under Arms." He spoke with eloquence and feeling of the heroes who had given up all to serve King and country. Their sacrifice ought to point the way to the highest expression of religion—the battle for the just and the right.

Mr. Angus Sutherland, of the Grenadier Guards, in reply, told how, although it had seemed at first odd that theologues should enlist for service, yet now in the knowledge of what Britain was fighting for, it was not only a privilege, but a duty.

Next in order came the toast to the Alumni, proposed by Mr. F. Mackenzie and responded to by the Rev. Malcolm Campbell. Both dwelt on the same theme, saying that the graduates from the colleges held honored positions, not only in this land, but in the lands beyond the sea, and although some might be less conspicuous than others to the public eye, yet all were doing a noble work.

In more rapid succession there followed the toasts to the freshmen in Arts and Matriculation. Mr. G. H. Fletcher, who proposed the Arts toast, said that the four years in McGill were a privilege, although he was painfully

R. V. C. GIRLS COLLECT FOR RED CROSS

Two Are Stationed at Entrances to All University Buildings.

NO TAGS USED

Undergraduate Society Will Give the Proceeds of 1915 Senior Dinner.

At the request of the Students' Council, the Red Cross Society of the Royal Victoria College is appealing to-day to the students of McGill University in the interests of the Imperial Red Cross Society. At the entrance of all the university buildings there are two R. V. C. students stationed with collection boxes. No tags or books are to be employed in accordance with the rules observed in this ward of the city. The Students are most urgently requested to contribute as liberally as possible in view of the great need in the present crisis. Any one wishing to make a subscription by cheque may do so by sending the same to Mrs. A. K. Fiske, 231 Milton street. The committee in charge of the collecting are the Misses Holland, Wolhamper, Howler, Wilder, Walker, Taylor, Abbott, Cameron, Gibbs, Savage, Fraser, Spier, Price, Hurd, McDonald, Holland and Muir.

R. V. C. UNDERGRAD. SOCIETY.

A meeting of the R. V. C. Undergraduates' Society was held yesterday, with the president, Miss McCall, in the chair. After the minutes of the previous meeting were read by the secretary, Miss Cameron Hay, the question of funds for the Red Cross Society was brought up. It was determined that the surplus money of the 1915 senior dinner should be devoted to the Red Cross. Arrangements were made for the collection that is being made to-day for this society. The president requested that there be less disturbance in the R. V. C. library, as quiet should be maintained there. The meeting then adjourned.

Y.W.C.A. AS WELL.

At a meeting of the Y.W.C.A. cabinet, held in the R.V.C. on Wednesday, the matter of holding the annual sale was discussed. The meeting was unanimous in deciding that all efforts should be directed towards Red Cross work this winter. If there is a large deficit in the Y.W.C.A. funds in January, a tea may be held, but the matter was left to be decided after the new year.

The Literary and Debating Society executive will have its picture taken at Rembrandt's at 1:20 to-day.

HISTORICAL CLUB TO OPEN SEASON SOON

Fortnightly Meetings to be Held at Prof. Colby's Residence.

FEW PLACES VACANT

Papers This Year Will Deal With History of the Present War.

It will come as good news to many that the Historical Club intends to continue its meetings again this year and that the prospects are exceptionally bright for a thoroughly successful season. A meeting was held on Monday afternoon when much was done toward completing the plans for the winter's work and the Executive now hope to have everything started within a very short time. For many reasons the Historical Club has long held the reputation of being the "Premier" of the small clubs in the university; in the first place it is the oldest club in the college having a continuous existence of more than 21 years. During all this time the meetings have been well attended and have been a decided success in every way. This success is due largely to the great interest taken in the club by Prof. Colby, its father and founder. For many years he has extended his kind hospitality to the club and he has again offered it the privilege of holding its meeting at his home. Those who have enjoyed the delightful evenings spent at Prof. Colby's realize how great a benefit this is to the club and are, no doubt, looking forward to the meetings to be held there during the coming winter. The meetings will be of especial interest this year inasmuch as the papers are to be on subjects connected with current history. For the purpose of preparing these papers Prof. Colby has offered the club the use of a large and complete collection of the best magazines and reviews dealing with the present situation. These will be of inestimable value in writing the papers and should produce much interesting material for discussion.

For those who know the Historical Club only by name a few statements may not be out of place. The meetings are held every other week at the house of Prof. Colby on Pine Avenue for the purpose of discussing certain periods of history. Three papers are read each evening and are followed by a general discussion of the subjects dealt with by the speakers. There is a sufficiently large membership to make it possible for each man to prepare but one paper during the year. This does not call for enough time to interfere either with college or military work.

The membership is limited to 25, but as several of last year's members have left college there are now a few vacancies which have to be filled. Any one interested in this subject who desires to join the club should communicate with the secretary, R. De Witt Scott, Arts '16.

TOWNSHIPS CLUB TO HOLD DINNER

November 3rd Chosen as Suitable Date for Important Function.

It was announced in The Daily about a week ago that the executive of the Eastern Townships Club had decided to hold an informal dinner followed by a smoker for the purpose of inaugurating the club this year. The idea was that some night should be chosen which would not conflict with drill, and it was found that the night most satisfactory would be Wednesday, November 3.

The idea of this social gathering is to afford an opportunity for the men from the Eastern Townships to meet and become acquainted. It has been a fact in former years that often men who hail from neighboring towns in the Townships never meet, although both attending McGill. The object of the club is to bring these men in contact and to afford an attractive opportunity for Eastern Townships to widen their circle of acquaintance.

The only qualification for membership is residence in the Townships—past or present—and the executive expect that all old members will attend next Wednesday evening, and that every freshman possessing the above qualifications will be present.

Will the gentleman who took the wrong coat from the Strathcona Hall last night please return same to R. W. Hovey as soon as he can at the Hall.

The Red Cross Appeal

Among the myriad calls on the purse during these momentous times, that of the Red Cross should be one of those to receive the strongest and most benevolent attention from the public. Thursday, Friday and Saturday of this week have been set aside to collect for this splendid cause, and to-day especially, the Red Cross is coming to McGill, and the collection will be made by the members of a committee from the R. V. C. in the grounds. No tags will be used so that the students will have ample opportunity to contribute unobtrusively any number of times they please. Those, on the other hand, who are really hard hit by concentrated expenditure, will be able to satisfy twenty-five approaching maids with a discriminating use of an equal number of coins, at a low rate.

Seriously, however, the Red Cross collection in McGill should receive the utmost aid and support of the members of the college and any effort made even to the straining of the pleasure store will be made for a deserving institution.

The Personal Element

Few of us are courageous enough to face our difficulties relying only on our merits, and yet that is the single way of really doing anything worth while and getting any satisfaction out of it. It is a very common error to let things slide on the shoulders of our friends. Such a course of action means stagnation and never development. It means dependence and not independence. Perhaps all this sounds rather vague and indefinite and does not seem to have any connection with the title of this editorial, but what we are trying to get at is this: Almost everyone at some time or other is seeking an office or a position, or a high mark or something of like nature. Now, there are two methods of landing what you want. One is to apply the personal element and the personal appeal. That is, you want to be considered in the light of who you are rather than what you can do. This is the easiest way and often the most successful. The other method is to ask favors from no one and place your case simply and solely on the basis of merit. Sometimes it takes considerable bravery and not a little spunk to follow this latter course. We don't care or dare to be judged on our merits. The outcome is too often uncertain. It is rather hard to submit ourselves before unbiased judgment and so we adopt the only alternative, the application of the personal element. The solid foundation for a successful career lies in deserved step-by-step progress based on merit. The other system is artificial and sooner or later goes to pieces through natural decay anyway.

Editorial Notes

Through an unfortunate typographical error, a quotation from the annual report of President Hadley, of Yale, was made to read as follows in yesterday's issue of the McGill Daily: "I should wish to have the time of the undergraduate students at Yale in the course of the regular terms occupied by compulsory or quasi-compulsory military drill. But I should be glad to have the work done in summer camps connected as a contribution toward the fulfillment of the requirements for a Bachelor's degree."

The word "not" should, of course, have been inserted at the commencement of the quotation between the words "should" and "wish."

Students who have joined the C. O. T. C. will receive with pleasure the news that the McGill Band is to be reorganized to take part in the winter's programme of the Battalion. Those who attended the parades last session and know how much the band contributed towards the success which attended the work of the Battalion, will welcome the announcement. All that Bandmaster Gibbs needs to reach his desired end, is a larger response on the part of undergraduates, and that response should be immediately forthcoming.

ARTS 1919 MEET

Officers Were Elected For a Class Debating Society.

Yesterday afternoon Arts '18 held a short meeting to discuss business. During the course of the meeting Mr. J. Levi proposed that a first year Arts Debating Society be formed. His proposal was voted upon and passed by a small majority. The following officers were elected for the Debating Club: President—H. Stilwell. Vice-President—J. Levi. Secretary—R. Wiggs.

SMOKER POSTPONED

American Club's Action Due to Freshman Conversat. This Evening.

Due to the fact that the annual "conversat" of the year is to be held this evening, the executive of the American Club has deemed it advisable to postpone the first smoker of the club, which was scheduled for that date. American students will watch The Daily for future notices regarding the smoker.

THE ORCHESTRA BEGAN SEASON LAST EVENING

Fifteen Men on Hand for the First Rehearsal of Year.

MUSICIANS DISCOVERED

Several of the Freshmen Proved to Possess Musical Ability.

The orchestra held a very successful rehearsal last night. About fifteen men attended, and seemed to enjoy the music very much. It is encouraging to note that about ten of those present were freshmen. Every one of these men showed himself to be a thorough musician.

However, it was somewhat discouraging to note that many of last year's players who are now attending college did not come up to the rehearsal. It is absolutely necessary to have all of last year's men attend and get interested in the orchestra this year, for after all, despite the fact that there are so many good new members, the old ones really show what the orchestra is and what are its aims. Thus they could not only bring the orchestra to a higher state of efficiency by attending it, but also be able to help in guiding the new members.

At last night's practice two very good cornet players, one pianist, one flutist and several violinists were amongst the new members present. Mr. Gibbs has kindly consented to play the bass violin, thus bringing in another new instrument to the orchestra. It will be seen that if all the new members would attend the rehearsals, the orchestra ought to have a very successful season indeed.

The next rehearsal will be held on Thursday, November 4, at 7:30 p.m., in the Strathcona Hall.

R. V. C. '16.

There will be an important meeting of R. V. C. on Monday, November 1, in the English room. Business: Election of debaters and arrangements for class photograph.

Y.W.C.A. MEMBERSHIP COMMITTEE

There will be a meeting of the membership committee of the Y.W.C.A. to-day at 1 o'clock, in room 12 of the R.V.C.

CONVERSAT. TO BE HELD THIS EVENING

Annual Function Given by Y. W. C. A. And Y. M. C. A. To Take Place.

To-night at Strathcona Hall the Freshmen meet the Fair Co-eds. This is one of the few social events of the year; in the past conversats have been most successful, and there is no reason why they should not continue so. This year the conversat, will take the form of a Halloween party, the Hall has been prettily decorated and a good programme is promised, so come along and enjoy yourself.

Don't forget boys you may meet your affinity. A word to the wise is sufficient. Have an eye to business, boys.

PHILOSOPHICAL SOCIETY TO MEET

Howard Honey Will Read Paper On Interesting Topic.

The second meeting of the Philosophical Society will take place on Monday evening next, the 1st of November, in Room B, Strathcona Hall, at which Mr. Howard Honey will read a paper on "The Concept of a Law of Nature in Modern Science." The meeting is called for 8:15 sharp, and all members and prospective members of the Society are urged to attend.

Mr. Howard Honey, M.A., is a past executive member of the Philosophical Society, and during his attendance at McGill always identified himself closely with the activities of the Society. Although greatly pressed with work in his new field of endeavor, Mr. Honey is still showing his interest in the Philosophical Society, and has been good enough to volunteer a contribution to this year's programme.

AUSTRIAN CONCENTRATION CAMP.

Rome, Italy.—An Italian who escaped from the Austrian concentration camp at Katzenau describes it as a vast enclosure surrounded by wire net work and guarded by about 250 soldiers. The sentinels carry fixed bayonets. Within the enclosure a kind of town has been built with huts constructed of wood and tarred millboard coated with quicklime. About 20 men inhabit each hut, sleeping on straw mattresses placed on the ground, and provided with a blanket which affords but inadequate covering. There are about 4,000 men interned at Katzenau, with many ecclesiastics among them. Cleanliness is well attended to and the rooms are airy, being supplied with large windows. A well-equipped hospital is provided, also a small theatre where Italian operettas are performed, half of the proceeds going to the four or five poor artists of the community and half to Baron Richter, the commander of the camp, who is understood to distribute the money among the Austrian needy.

THE DAILY PHOTOGRAPH.

This afternoon, the members of The Daily staff will please present themselves at Rembrandt's Studios, 591 St. Catherine street, at 1 o'clock. All members are requested to be there, and to be on time.

TUNNEL WORK IS ILLEGAL; ASK FOR WRIT

Petitioners Want Tunnel Boring Under McGill College Ave. Stopped.

CLAIM C.N.R. TOOK LAND

Judge Grants Delay For Petitioners To Put Up Security.

A motion is before the courts for a writ of injunction to prevent the Mount Royal Tunnel and Terminal Company, Ltd., from continuing their work under a part of McGill College avenue which it is alleged they have tunneled without having expropriated the land from the owners. The matter came before Mr. Justice Maclellan this morning in Practice Court. The petitioners are the Royal Trust Company, and George Stewart MacRae, Mabel Helen MacRae, Charles E. K. Vidal, Gerald Baldwin MacRae, and Belle Breckenridge MacRae. The Royal Trust Company is acting in its capacity as executor to the will of the late Rose Stewart MacRae, widow of the late George MacRae, to whom the property belonged, and who in her will left the property to the petitioners.

The petitioners contend that about April 16, 1913, the Canadian Northern interests illegally and without any process of law and without complying with the terms of the Railway Act, took possession of the property on McGill College avenue, and proceeded to bore a tunnel through the land, and to prepare to run trains through. They have deprived the petitioners of the possession of the land ever since that date. A notice of expropriation was served on the petitioners about the 16th April, 1913, but the petitioners claim that the expropriation has never been proceeded with. The value of the land illegally taken is claimed to be \$8,000. The petitioners therefore ask for a writ of injunction to be issued against the company enjoining them to cease running trains under their land. This morning the company made a motion that the petitioners, living out of the province should put up security for costs, and that power of attorney be produced. The judge granted a delay in order that this may be done. Messrs. Casgrain, Mitchell, Holt, MacDougal, Creelman and Stairs for the petitioners, and Lafleur, MacDougal, Macfarlane and Pope for the company.

P.C. BANQUET TO FRESHIES WAS A SUCCESS

(Continued from page 1).

aware that there was a lack of cohesion and mingling of interest between prospective theologues and other Arts students.

Mr. Grier, who proposed the Matriculation toast, claimed that this initial course was the hardest for the theologues, for he came to it usually many years after leaving school. The only class, Mr. Grier continued, who were worth calling students were those who came up to college resolved to work hard.

Messrs. MacRae and Shaver replied for their respective classes.

The last toast of the evening was to the French students, proposed by Prof. Bieler. He claimed that, although these were a small minority, yet by earnestness and devotion to duty these would more than justify their existence. Mr. H. Fresque in reply gave a sustained eulogy of Prof. Bieler, whom he said had been not only a professor, but a father to all the French students.

GRADUATE MARRIED

J. H. Hooper, of Sci. '11, Married in Ottawa Yesterday.

The marriage of Miss Nadja von Anrep, daughter of the late Hon. Aleph von Anrep, and sister of Mr. A. von Anrep, of this city, to Mr. John Harold Hooper, Sci. '11, son of Mr. and Mrs. and, took place quietly yesterday afternoon at St. Bartholomew's Church, Ottawa, in the Rev. Canon W. A. W. Hamilton officiating. The nuptial music was played by the organist, Mr. H. I. Minter. The bride, who was given away by her brother, Mr. A. von Anrep, wore her travelling costume of prune-colored broadcloth with a velvet hat to match, black fox furs and a corsage bouquet of violets and pink roses. Both bride and groom were unattended, and immediately after left for Montreal and Quebec for a few weeks' holidays.

STAFF RECITAL HELD AT R. V. C. LAST EVENING

Staff of McGill Conservatorium Gave Splendid Performance Yesterday.

ENTHUSIASTIC AUDIENCE

Varied Programme Met With Much Applause From Those Present.

The Staff Recital of the McGill Conservatorium took place last evening in the R. V. C. before a well represented gathering. The following numbers were played:

1. Sonata in C Minor, Op. 45 for Violin and Piano (Grieg); Allegro molto ed appassionato; Allegretto espressivo a la Romanza; Allegro animato; Mr. Saul Brant and Miss Agnes Harvie.
2. Songs, Come Raggio di sol (Aria), Caldara; D'une Prison, Reynaldo Hahn; La Chantante Marguerite Old French Song arr. by A. L.; Mr. Norman Nottley.
3. Piano-forte Soli, Romanza ed Intermezzo, F. Lamond; Nocturne in F major Op. 15, No. 1, Etude, Op. 25, No. 10, Chopin; Idyll, Mayfarth; Nocturne Op. 22, X. Scharwenka; Mr. Wm. C. Mayfarth.
4. Songs, My Lovely Celia (Old English, arr. by Lane Wilson), George Monro; Sylvain, Sinding; Hymn to Light, John Ireland; Mr. Norman Nottley.
5. Violin Solo, Polonaise in D, Wieniawski, Mr. Saul Brant.

Accompanists: Miss Clara Lichtenstein and Miss Agnes Harvie.

In the Greig Sonata Mr. Brant and Miss Harvie gave an intelligent and dignified interpretation of the great lyric composer's style. Mr. Nottley, though, somewhat cold in his first two numbers showed a technical knowledge, which was highly creditable to himself. In his later numbers he became decidedly more responsive. His singing was that of an artist and won much enthusiastic applause. Mr. Mayfarth exhibited a ponderous, masterly style. His technique, particularly in octave work is remarkable. The cool easy manner in which he performed the tremendous Chopin No. 10 Etude was truly amazing. Both Miss Lichtenstein and Miss Harvie accompanied poetically and in a musically way. The performance was a credit to the University and reflected a musical atmosphere about McGill which is very gratifying. With such a staff it is no wonder that the McGill Conservatorium ranks first among the musical institutions of Canada.

RAILWAY CLUB TRIP ON SAT. AFTERNOON

Frontenac Breweries is the Field Chosen for the Initial Meeting.

The most popular club of the Science Faculty will meet at the Union to-morrow at 2:15. The purpose of this club is to familiarize the undergraduates with the different important manufacturing plants and engineering feats.

The trip this Saturday is to the Frontenac Breweries and all the Science students interested are asked to be on hand in good time. The year's programme is a splendid one and the executive lack only the co-operation to make the club a huge success.

HAS LIST FORMED OF OVERSEAS MEN

Queen's Senate Appoints Committee to Gather All Necessary Information.

A committee of the Senate of Queen's University has been appointed to secure a complete and permanent record of all professors, graduates and students of the university who have enlisted for overseas service. The plan should prove a very valuable one and it is the intention when the record is completed to publish it in pamphlet form and distribute it.

The form issued calls for the name in full, university year and degree, if any, home address, date and place of enlistment, rank on enlistment, promotions, if any, company and battalion or other unit, official number and remarks. In the latter column information regarding any distinction won and battles in which the person was wounded or killed, etc., is desired. Prof. Herbert T. Wallace is secretary of the committee.

AT SCHOOL AFTER 20 YEARS.

How would you like to study and recite in class-rooms with your mother? This will be the experience of Miss Louise House, of Kansas City, now a student in the University High School, during the four years of her life at the University of Missouri.

Miss Louise and her mother, Mrs. L. W. House, came to Columbia at the beginning of the semester and each entered a school. Mrs. House entered the College of Arts and Science of the University.

Mrs. House had not attended school for 20 years, but expects to become accustomed to the routine of student life by the beginning of the second semester, when her daughter will enter the university. At this time Mrs. House will enter the School of Journalism to fit herself for magazine and newspaper work.

MANDOLIN CLUB ELECTIONS HELD

To Ask Students' Council For Money Grant to Defray Expenses.

At a meeting of the McGill Mandolin Club, held last night at the Peate School of Music, the election of officers was held, and some important business was transacted. Mr. H. C. Riley, who is a lecturer on Physics in the Faculty of Science, was appointed president, while Mr. J. J. Gordon was elected Secretary-Treasurer. It was decided to send a request to the Students' Council for a grant of money to cover expenses which will be incurred during the year. The meeting was largely attended and the support given the club was most enthusiastic. It is hoped that the future meetings will be as heartily supported as the Mandolin Club fills a most important part in the life of McGill students.

Y.M.C.A. CAMPAIGN WILL BE STARTED SOON

Captains Appointed to Cover Collections in Different Years.

The Y.M.C.A. campaign is getting under way gradually with the appointment of captains to cover and share up the different members of each year. This preparation will have its culmination in the annual supper which will take place next week some time, to allot the final distribution and give the final impetus to this most necessary and deserving campaign. McGill men ought not to forget the Y.M.C.A. even in these hard times, since it does not forget them. To-night one example of the use of the Hall will be seen in the conversation, which is only the first of these social happenings.

R.V.C. 1917

Contributions For the Annual Wanted From Members of Junior Year.

R.V.C. members of the editorial board of the 1917 Annual will be glad to receive any quotations or personalities that may be sent in by girls of the junior year. Please address communications to J. Patton or G. Melvin.

As the Annual is going to press very shortly, it is urgently requested that all contributions be sent in within a week.

CONSTITUTION FOR ILLINOIS UNIVERSITY.

Urbana, Ill.—Warned by the vicissitudes of State universities, close to Illinois and in general by the shifting and changing conditions of the big institutions of learning, President E. J. James, of the University of Illinois, has had drawn up a proposed constitution for the university. Dr. James thought it wiser, if radical changes should be made, that they come upon the initiative of the universities than from the politicians, and at least only after careful study. The document has been drafted by a special committee of the university senate to this end.

GREEK STUDENTS IN PARIS.

Paris, France.—Before leaving Paris for their own country, in obedience to the Greek mobilization order, the Greek Students' Association convened a meeting, at which political speeches were made by the president of the association, Dr. Mandras and MM. Valsamaki and Capetanakis. The speakers referred with enthusiasm to the heroism of the Serbs, and expressed their devotion to the cause of the Allies. M. Valsamaki, who has fought in the ranks of the French army, has been decorated with the Legion of Honor and the Military Cross. Before the meeting closed a telegram of sympathy was sent to Serbian students.

GENEVA AND FRENCH SUCCESS.

Geneva, Switzerland.—Great enthusiasm was manifested in Geneva when the news of the French success in Champagne became known. In the theatres the audiences cheered France and sang the Marseillaise.

J. C. SIMPSON,
Lieutenant.

Act. Adjt., McGill Cont., C.O.T.C.

WHEN SAMOA WAS GERMAN.

London.—What will likely be the last German consular report from Samoa, has recently been issued for 1913, the last full year of German occupation. The report mentions the great efforts made to promote the use of the German language amongst the Samoans, but states that the proximity of English-speaking countries would always probably make the English language necessary. A native poll tax of 20 marks for bachelors and 24 marks for married men was in force at the time the report was made.

DONT.

Don't drink anything. It may contain germs or bacteria.
Don't eat anything. It may contain benzoate of soda.
Never interrupt a busy man.
Avoid accidents. If you get into one, get out as quickly as possible.

Serving Overseas

LORNE MONTGOMERY.

"Monty" writes in cheerful vein from No. 3 (McGill) General Hospital. He was formerly quarterback of the senior Rugby team and goal-tender of the senior hockey team.

RAISED FROM RANKS, DIES SHORTLY AFTER

Leslie Hyde, Son of Toronto Minister, Succumbs After Winning Promotion.

On Monday, Rev. T. Bradley Hyde, of Roxboro' Drive, Toronto, received word that his son, Leslie, a Varsity student, had been promoted to a lieutenant in the Royal Canadian Horse Artillery in England. The following day he received a cable that his son was dead. The news of the promotion was received in a letter from the son, who mentioned that Gordon Hamilton and himself had been made lieutenants in "C" Reserve Battery of the Royal Canadian Horse Artillery, at present stationed in London. Like a bolt from the blue sky came the following cablegram announcing his death:

"Leslie died peacefully, as the result of an operation."

The family had not been aware previously that the youth was even sick.

Lieut. Hyde was a chum of Lieut. Hamilton, both getting their commissions at the same time. He was 19 years of age and a St. Andrew's College boy. He was a lieutenant in the Cadet Corps there. It is probable that he will be buried at the home of Rev. Mr. Hyde's father in the south of Ireland.

RECEIVE PROMOTION

Medical Graduates Serving With the C. E. F. Are Raised in Rank.

Lieut.-Col. Lorne Drum, Med. '96, who is at the front with the Canadian Army Medical Corps, has been promoted to a temporary colonelcy in the same branch of the service. Major Campbell B. Keenan, Med. '97, who went across as surgeon-major of the Princess Patricia's Canadian Light Infantry, becomes a temporary lieutenant-colonel in the Canadian Army Medical Corps. Capt. Francis W. E. Wilson, Med. '97, Medical Officer to the Canadian Mounted Rifles, receives the rank of Major. Capt. Robt. Campbell, Canadian Expeditionary Force, and Capt. C. A. Young, Med. '95 attached to No. 2 Stationary Hospital. These promotions are announced officially in recent orders.

BRILLIANT ENGINEER

London Times' Tribute to Late Lieut. H. S. Duggan, Science '12.

The London Times, in an obituary on Lieut. Herick Stevenson Duggan, Sci. '12, of the Royal Engineers, who was killed in action in France, remarks that he was a son of Mr. G. H. Duggan, of the Dominion Bridge Company, and was one of the most brilliant of the younger generation of Canadian civil engineers. He volunteered when war broke out only to be refused four times on account of a weak heart.

WOMEN POLICE IN BERLIN.

Paris, France.—A French official communication states that information has been received from Berlin to the effect that German women are taking the place of men at night patrols. They are accompanied by trained dogs. It is also stated that owing to the difficulty in getting petrol the use of automobiles is being restricted in Berlin. The hiring of cars is not allowed, severe penalties being imposed for the infringement of the rule.

AUSTRIAN PRISONERS OF WAR.

Rome, Italy.—About 300 Austrian prisoners of war interned at Gavi near Genoa are being employed by the Marquis Di Cambiaso, who owns vast estates in this vine-growing centre. The prisoners are under the direction of two of their officers, also prisoners of war, and attend to the agricultural duties allotted to them with evident pleasure. Italian sentinels guard the estates, but are very little in evidence. The prisoners, who are being employed as substitutes for the laborers absent on military duties, receive adequate payment for their service and are glad to be relieved of the enforced idleness of life in the fortress.

MONTY. LOOKS FORWARD TO NEW STADIUM

Writes Interesting Letter to Arthur S. Lamb, of the Students' Council.

LIEUT. BRUNEAU NOW

Dr. I. E. Bruneau Serving as Section Commander in 141 Field Ambulance.

Lorne C. Montgomery, quarter-back on the champion McGill Intercollegiate Rugby team, and now in France with No. 3 (McGill) General Hospital, writes as follows to Arthur S. Lamb, president of the Students' Council:

"Don't throw a fit when you see this little epistle. I really meant to write sooner, but last month we didn't have so very much spare time.

"How are things coming on at college? You have no idea of how keenly we have followed all that has been done in regard to Rugby. Personally, I think your decision not to continue intercollegiate series quite right; it is also the general opinion of the Rugby fellows around here. Gee, how I would like to be back at the old game. All we can do here is boot the pill around a bit.

"What have you come in regard to Shaughnessy? Has he been released from this year's contract with the understanding that he will be back the following season? If possible, Arthur, try and keep in touch with him. From the feeling among the fellows here there will be a great boom in rugby when every one gets back. It is impossible to get a better man than Shaughnessy to help along when the Stadium opens, so if I might suggest, see if he will be willing to come back. The fellows who have played under him before would hate to go back and find him not in his old place. Say, it will be a happy day when we can get up on the new campus and have him giving us the devil. Be sure and let me know about everything that's going on, as you know how interested I am in it. I'd sure like to drop in at some of the Students' Council meetings. From here they seem as if they were regular social gatherings we had last year. If The Daily is running, suggest to its kind-hearted president that a few copies would be very acceptable to our fellows.

Things are Smooth.

"Things are running smoothly around here. September was a very busy month, but life is back to normal once more. You should see old Deb. (Desbrisay) breezing around since his knee was operated on. It's in great shape and does not bother him at all. "At present I am on night duty and will be until the 7th of November. As yet I haven't become accustomed to sleeping during the day and have to nearly prop my eyes apart around 3 a.m."

Lieut. I. E. Bruneau, Med. '13, who crossed to France during the summer with a Canadian unit, and is now attached to 141 Field Ambulance, British Expeditionary Force in France, writes as follows to W. P. Hughes, Law '10: "Left Ottawa with the Canadian signallers, 2nd Division, and had a pleasant, lively trip on the Megantic. Landed at Plymouth on May 24, and on June 9 got my commission. Spent two months training in England and became section commander of the 14th Field Ambulance. Took my section over to France, and now the second two months are over and I have had an ideal time. Have only been exposed two or three times to any great danger, but have had about three or four days of killing hard work, and the rest has been spent in the ordinary routine functions of ambulance life. "Rutledge and Sid (Bruneau) were safe on September 9.

"Best regards to all the friends. Canadians have a d—d good name for fighting in the British army."

Serving Overseas

GEORGE LAING.

SMALL ARMY AND SCHOOL TRAINING

American Senator Announces the Platform He Will Support.

Washington, Oct. 29.—A standing army of not over 150,000 men and the training of young men in schools and colleges for active service forms the backbone of what Senator Chamberlain, chairman of the Senate military affairs committee, considers an adequate national defence.

The Senator arrived to do a considerable amount of campaigning for his defence programme before the opening of the Senate. He held conference yesterday with leaders on matters of preparedness.

"My idea," said the Senator, "is not a big, bulky standing army nor an expensive army, but rather a small, well-trained, efficient army, with special attention to be paid to the trained officers, and more efficient national guards and the organization of the youths of the nation into something like the Swiss system.

"A year ago I advocated a programme similar to this, but without success. Now, I believe better results will be obtained.

"The big important item, I believe, is a large number of trained officers. I think it is generally understood that the success of the German forces has been due to their trained skilled leadership."

HOSPITAL INSPECTOR

Surgeon-Major F. B. Carron, Med. '96, Receives Promotion in England.

Surgeon-Major F. B. Carron, Med. '96, who went overseas during the summer as medical officer of the 39th Battalion, C.E.F., previously stationed at Belleville, Ont., has been appointed medical inspector of military hospitals in a section of England. Major Carron's position is a most important one, upwards of a hundred hospitals being under his supervision in his new position. He has served the Empire already in South Africa as medical officer with a British unit. Later, he spent several years in China. Lately he has been in practice at Brockville, Ont.

REORGANIZE MCGILL BAND FOR SESSION

Twenty Men Already Signed Up For Popular C. O. T. C. Detail.

WILL GET CONCESSIONS

Men Joining the Band Will be Granted Allowance by the Faculty.

As a result of a conference held last evening between C.O.T.C. authorities and Bandmaster C. R. Gibbs, the McGill Band this session will become an assured fact. Already twenty men have signed up with the band, which is likely to become as valued a part of the C.O.T.C. organization as it was last year. Capt. Angus is in charge of the affairs of the band, with Charles R. Gibbs, Sci. '16, as bandmaster. The band company will be gazetted within a few days, and a band-room in the High School will be assigned to the company for practice and other purposes. Practices, it is expected, will be held twice a week, and the band will attend all Saturday afternoon parades. Bandmaster Gibbs stated last night that the bandmen would receive the faculty concessions upon the same terms as other men joining the C.O.T.C. Instruments will be issued by the company quartermaster-sergeant, who is yet to be appointed. A. T. Bone, Sci. '16, will act as musical librarian. Prospective bandmen are asked to see C. R. Gibbs at Strathcona Hall. Several more men are still needed.

The men who have joined the band company to date are the following: C. R. Gibbs, Sci. '16, bandmaster. Ray Cluff, Sci. '17. J. N. Betournay, Sci. '19. K. Rosebrugh, Sci. '16. T. Blinnore, Arts '18. A. T. Bone, Sci. '16. H. Moquin, Sci. '19. W. E. Henderson, Med. '20. J. C. Morphy. L. Amdur, Sci. '19. J. R. Deay, Sci. '19. C. A. Monet, Sci. '16. D. J. Beach, Sci. '19. J. A. Despatie, Arch. '16. Prof. W. C. Willard. H. E. Taber, Sci. '19. K. Gordon, Med. '18. G. Boone. G. C. Campbell. W. H. Kelly, Sci. '16.

TO GET COMMISSIONS

Canada's Young Airmen Partially-Successful in Their Quest.

The flight of Canada's young airmen for recognition as members of a Canadian aerial squadron has been partially successful. They are to be granted army commission. The news has reached Toronto in the form of a letter from Major-General W. G. Gwatkin, chief of the general staff, Ottawa. Major-General Gwatkin states that candidates for the military wing of the Royal Flying Corps must hold or obtain commissions in the Canadian militia, and accept liability for general service overseas with the Canadian Expeditionary Force. Accepted candidates will be granted free passage to the United Kingdom, where they will be required to undergo a course of instruction in aviation. If they graduate as pilots they will be posted to the Royal Flying Corps, but in the event of their proving unsuitable for the Royal Flying Corps they will become available for service with the Canadian Expeditionary Force.

MAY BE AT SICILY

U. of T. Base Hospital No. 4 Will Probably Be Located There.

In an address recently delivered at Toronto, Lieut.-Col. H. A. Bruce, who has returned from the front, said the University of Toronto Base Hospital No. 4 sent to the Mediterranean would probably be located in Sicily. It was quite untrue there was a scarcity of medical men and beds in France and Flanders. There were 45,000 empty British and Canadian beds on his visit. Canada was supporting 1,000 beds in France and England.

OBTAINS APPOINTMENT.

Dr. Dunlap Pearce Penhallow, of Boston, has succeeded Dr. Howard W. Beal as chief surgeon and head of the American Hospital at Paignton, England. Dr. Penhallow is the son of the late Prof. Penhallow, of McGill.

McGILL CONTINGENT, C. O. T. C.

Evening Parade.

Until enough students have enlisted to justify the change of the evening parades from Thursday to Friday evening, the Battalion will continue to parade on Thursday evening at 7.45, at the old High School, Metcalfe St.

Attendance.

Attendance, as counting towards "Efficiency" for students of the Faculties of Arts and Science, will begin to count from November 1st for all students who enlist in the Contingent on or after that date.

By Order,

J. C. SIMPSON,
Lieutenant.

Acting Adjutant, McGill Cont., C. O. T. C.

FEW AT PRACTICE

Soccer Club Has Difficulty in Getting Out Enough Men.

The Soccer Club has some difficulty in getting enough men out to make it work while, or even to get a full team out. Yesterday afternoon only a few men turned up to the practice that was called at 4 o'clock on the Stadium.

There is no lack of chance to play, because the team has had several offers of games, and it only remains for the men to turn out and make a team. The grounds are always there, and the coach will be on hand to help the new men and give hints to the older players.

The next practice will be announced in The Daily.

What the Castle Blend Catering Service Supplies

Delicatessen, Jellies, Ices, Creams, Pudding, Etc., as desired. Also Glass, China, Cutlery of all descriptions, Banquet and Afternoon Tea Cloths and other Table Napery of every sort.

All these articles are included in our regular "Service" charges, which are remarkably reasonable. Send for booklet, "Castle Blend Quality Catering."

 SPECIAL DISCOUNT TO STUDENTS.

THIS IS LAST OPPORTUNITY FOR FRESHMEN

To-day is Last Chance For First Year Students to be Examined.

C. O. T. C. MEN EXEMPTED

First Year Men Must Put in Two Hours a Week Physical Drill.

To-day is the last opportunity for first-year students to present themselves for physical examination. Dr. Harvey will be at the C.O.T.C. headquarters from 4 to 5, and from 6 to 6.30. If not examined to-day, offenders must face the music.

The University regulations regarding compulsory physical education for all first-year students are to be enforced from Tuesday next, November 2nd. All first-year students are to put in two hours per week in some form of physical exercise. Those men who are drilling with the C.O.T.C. are exempt from any further requirements in the gymnasium or in athletics of any kind. Students who have not joined the C.O.T.C., but who have elected to take any other form of activity, are responsible for two hours per week, commencing next Tuesday. Those who have chosen basketball, boxing, wrestling or fencing are to report at the regular gymnasium class periods for attendance, where their special activities will be allotted. Students choosing swimming may report at any of the gymnasium class hours or on Mondays and Wednesdays at 5.30 at the Y.M.C.A. tank, on Drummond street. Swimmers reporting on Mondays or Wednesday must see that their attendance is recorded by the locker room clerk at the Y.M.C.A. Those choosing boxing, wrestling or fencing must report at the gymnasium classes until their activities commence, when special arrangements will be made for their accommodation. Special instructions will be issued to-morrow for those men who have chosen Rugby football and hockey.

Students must familiarize themselves with the numbers that have been allotted to them, as it is on these numbers that their attendances will be checked. The gymnasium periods are Tuesdays, Thursdays and Saturdays at 5.15 p.m., at the Y.M.C.A. gymnasium, Drummond street.

The following men have chosen the gymnasium work as their line of activity:

1. Favard, A.
2. Popham, H.
3. Clayton, T. M.
4. Pincott, G. S.
5. Iner, G. H.
6. Frey, R. J.
7. Curran, A. H.

125. Dyer, H. O'R.
126. Ashby, P. A.

The following men registered for swimming must report to the gym, at the regular hours or on Mondays and Wednesdays at 5.30:

151. Floyd, J. E.
152. Potter, C. D.
153. Dillon, T. P.
154. Campbell, H.
155. Brandes, E.
156. Nicolls, H.
157. Murray, J. S.
158. Patten, R. H.
159. Shapiro, C. E.
160. Rhineberg, O.
161. Marcus, M.
162. McDougall, J. A.
163. McEwen, C. S.
164. Carlisle, LeDeout.
165. McAvoy, R.
166. Elderkin, —
167. Goldman, S. M.
168. Tee, C. E.
169. Ellis, H. L.
170. Taude, N.

Additional names will appear in to-morrow's Daily.

Any of the above men who have joined the C. O. T. C. must see Mr. Lamb and get their transfers. Any errors in the above lists must be corrected by Monday.

Princeton is the only team that has scored on Syracuse this fall, and that was a goal from the field.

Mark Payne, half-back on the Dakota Wesleyan team, is credited with having made a field goal by a 63-yard drop kick.

W. M. Minot, a former Harvard varsity star, will captain the Battery A eleven in its annual contest with the First Corps Cadets in the Harvard Stadium on Thanksgiving Day.

A Freshie Again

"BILL" HUGHES.

Who is back at McGill this year as a freshman in Law. He is also on the teaching staff of Westmount Academy.

SCI. SENIORS TO CLASH WITH SCIENCE '17

Important Game for Championship of Science to Take Place To-day.

FORMER STARS TURN OUT

Good Game Promised as Both Sides Are Bent on Winning.

This afternoon a game will be played between Sci. '16 and '17 on the Stadium at 3.15. This contest promises to be a close one, because both teams are determined to win, in the first place, and also they have been practising faithfully nearly every afternoon in an attempt to get the cup.

The seniors last Tuesday defeated the sophomores very easily by the score of 66 to 5 after a game very varied in character. The seniors have a number of old first and second team players who, besides being good at the game and at carrying the ball, have a lot of Shaughnessy's experience to work against their opponents. The juniors, however, by dint of hard practice and work, hope to do better than the sophs in this afternoon's struggle.

Williscroft and Woolatt are the stars of the Science '16, but "Venus" Lemay and Booth on the juniors are also good men, while Trapp is also another old and hardened player. In to-day's practice the juniors worked hard and now have their signals fairly well in hand.

The senior men will be composed of Sears, Ferguson, Williscroft, Woolatt, Roseborough, Wilkins, McNeill, MacLachin, Brown, Ryan, Rounthwaite, Kelly, Harris and Crutchfield.

The juniors' line-up is: Ferguson, Lemay, Booth, Trapp, Shanly, Charlton, Clarke, Pope, Perrault, Carroll and Crombie.

DISTANCE A FLY HAS BEEN TESTED TO FLY

Experiments Show That the Insect Has Travelled Nearly a Mile on Straight Journey.

The distance which a fly can journey and the direction in which his flight is likely to lie are questions important enough to have been recently discussed before the Cambridge Philosophical Society by Dr. E. Hindle. The relations of this pestiferous little insect to the public health are so important, indeed, that the doctor has devoted profound study to its habits.

He recently secured some 25,000 of the insects, and, after dusting them with colored chalk powder for the purpose of identification, set them free. In the meanwhile he had arranged for many stations at varying distances, where the flies might be trapped. A good many of those which he had marked were so captured.

The flies were released under ordinary weather conditions and without any effort toward influencing their flight, the purpose being, of course, to ascertain their normal habits. The experiment showed that these insects in migrating fly against the wind, or at least obliquely thereto.

The longest flight accomplished was 700 metres, about 2,296 feet. The course of this fly was over open country and comparatively free from trees. The greatest distance traversed by any in a city was approximately 1400 feet. The figures seem to indicate that the fly may travel about half a mile in ordinary circumstances, although when conditions are unusual, as in a high wind or when impelled by hunger, its flight is known to be much longer.

COSMOPOLITAN CLUB NOW A N. Y. UNIVERSITY PLAN

New York—A canvass of possible candidates for a cosmopolitan club in New York University reveals a great diversity in the nationality of the students. Hardly a portion of the world is without representation in one or other of the nine departments of the university.

The far east sends many men. The Japanese students number 18, the Chinese 17, East Indians 3, and Filipinos 2. Some of the other countries represented by native sons are: Mexico, Brazil, Cuba, Porto Rico, England, France, Germany, Russia, Hungary, Roumania, Holland, Switzerland, Austria, Greece, Italy, Spain, Australia and Syria.

Commercial lines appear to be most attractive to the men from the far east. Of the 18 Japanese, 13 are in the School of Commerce. Of the 17 Chinese, six are in the School of Commerce and seven are in the Washington Square College specializing in commercial subjects. Two Japanese are studying law and one another profession. One of the Chinese students is Chango-ho Jingow Hu, a professor from a Chinese college studying in the School of Pedagogy. About half the Chinese students are from Canton. Several years ago one student came from that city and he has continued to influence his friends ever since.

PROF. WINDLEBAND DEAD.

Berlin, Oct. 26.—The death of Prof. Wilhelm Windleband of Heidelberg University, formerly of Strassburg University, was announced yesterday. Prof. Windleband, who was in his 68th year, was eminent for his philosophical works and also noted as an orator.

Printed for the publishers—The Students' Council of McGill University—by The Financial Times Press, 333-335 Craig Street, Montreal.

Some Line Plunger

BIG ART BROWN.

Art played last year with the McGill seniors, and will be in a Science '16 uniform this afternoon, when that team locks horns with '17 for the championship of the Faculty of Science. Look out for trouble.

DR. BARKER GIVES TALK TO STUDENTS

Spoke to the Men After Gymnasium Class Yesterday Afternoon.

Yesterday at the gymnasium classes, Instructor A. S. Lamb, after he had lined up his men and sat them down, introduced to them Dr. Barker, who had kindly consented to speak to the class for eight or ten minutes on subjects touching their work. Dr. Barker has had good experience as a gymnasium instructor, having held that position to ex-President Taft during four years of his administration.

Dr. Barker unfortunately, due doubtless to his varied audiences which succeeded each other in quick succession, seemed under some misconception, of whom his hearer represented, namely, a body of men from McGill, coming from all classes and faculties. Also these were under the leadership of Mr. Lamb, of McGill, and not Dr. Smith, of the Y.M.C.A.

The speaker congratulated the men and noted the good that their work would help not only themselves, but indirectly do good to the university. The old idea of medicine as being purely a profession for curing disease was going out, said Dr. Barker. Much more time was spent now than formerly in preventing disease than in curing it, and the best way for men to help this was to start with themselves and get into good condition and health. Under the above-mentioned misconception, Dr. Barker paid a high tribute to Dr. Smith, of the Y.M.C.A., for his fine work, a tribute highly irrelevant under the circumstances.
